ROUSING WELCOME TO FLEET AT SAN DIEGO.

First Picture of Fleet in California Waters—Photograph of the Battleships Taken From Steamer California Immediately After Their Arrival at San Diego Yesterday.

HEARTS BEAT PROUDLY AS ANCHORS SPLASH.

Boats at Coronado Beach So Affected They Stand Silent for Minutes.

Cruise from Home Port to Home Port Completed Ten Minutes Ahead of Time—"This Is Historic," Says Gov. Gillett After Delivering Forthright Welcome on Board the Connecticut.

(BY DIRECT WIRE TO THE TIMES.)

San Diego, April 14.—[Exclusive.] The fleet of battleships, which arrived here yesterday, was met by a large crowd of people on the shore. The ships were anchored in the harbor, and the crowd stood silent for minutes as the anchors splashed. The ships were met by a large crowd of people on the shore. The ships were anchored in the harbor, and the crowd stood silent for minutes as the anchors splashed.

Gov. Gillett, with Admiral Thomas, all the officers, and committees, mounted to the quarter-deck and there to the Admiral, the officers and the "boys behind the guns," the Governor of California spoke to them the words of welcome which found an echo in every heart, words which were applauded by a thousand pairs of hands. In response three such hearty cheers were given as caused the wireless telegraph apparatus to tremble as though recording some momentous message of victory.

And so all felt. For were they not home again? Had they not conquered the perils of a voyage which will go down into history? Surely those were historical cheers which caused Gov. Gillett to flush with pride on the quarter-deck of that flagship.

Gov. Gillett gave his message of welcome to them all. He told of the pleasure he experienced in speaking to them these words in behalf of the people of California, and he assured them of the hospitality and hearty welcome the officers and men of the fleet would receive wherever they went. Continuing, he said: "The people of California have watched with great interest your voyage around the Horn and have kept in touch with you as closely as might be. To you, Admiral Thomas, and to your gallant officers, I extend the welcome of California. And to the boys behind the guns, and here Gov. Gillett returned to face the banked masses of the ship's company and the double files of the marines, "to you I want to say that you are protecting the dignity of this great country of ours. This is the greatest nation of the world and as such we should have the greatest navy in the world. There is no nation can command a battleship as this nation can—can put behind the guns the brains and muscle which we have here. And in that great naval war which is coming, when nations strive for the control of the Pacific, the boys behind the guns will make a good report of themselves."

In conclusion, Gov. Gillett extended to these "boys behind the guns" the hearty welcome of California and hoped that when they sailed away from its hospitable shores they would bear with them in their hearts and minds the memory of our welcome and hospitality.

CANNON SAYS NO TO PRESIDENT.

OPPOSED TO FOUR BATTLESHIPS AND HEPBURN AMENDMENT.

Speaker Sends Congressman Watson to White House to Deliver Formal Refusal to Enact Executive Policies into Law—Speculation as to What Happened to Watson.

WASHINGTON, April 14.—[Exclusive.] President Roosevelt was told today by Representative Cannon, of Indiana, acting as the spokesman for Speaker Cannon, that his policy regarding his naval program for four battleships and for the enactment of the Hepburn bill emasculating the Sherman anti-trust law, will not be placed on the statute books at this session of Congress.

What happened to Watson after he unceremoniously himself the political mystery of Washington. As he entered the White House, he told several correspondents he would give them the result of the conference at its conclusion. At midnight the lights were extinguished and the legislative mansion closed, but Watson did not reappear and cannot be found.

Whether the President wielded the big stick with deadly effect on the Indiana Representative or whether he was smuggled out a rear exit cannot be learned until Watson is found. But those who have talked with the President regarding his policies know that he is in deadly earnest about having them enacted into law, and there is good ground for the belief that he pranced up and down the spiral column of the Indiana statesman.

MOROS KILL SOLDIERS.

American Troops and Outlaws Clash in Mindanao Is Reported in Private Message.

MANILA, April 15.—A private telegram, not yet confirmed officially, reports an engagement between regular troops and constabulary and Moro outlaws near Lanao, a town on the island of Mindanao.

Two members of the constabulary are reported killed and three soldiers wounded. A column composed of a battalion of the Eighteenth Infantry and constabulary, under command of Col. Davis, has been following a band of outlaws and it is presumed that they were overtaken and an engagement ensued.

WINE GROWERS CONFIDENT.

Believe Regulations Will Be Changed as Result of Hearings Before Internal Revenue Collector.

WASHINGTON, April 14.—[Exclusive.] It is probable that Internal Revenue Collector Capers will make changes in the regulations relating to the fortification of sweet wines as a result of hearings which closed today.

California wine interests were looked after by Senators Perkins and Flint, President Perry Morgan of the California Wine Growers' Association, G. Rogers, representing the Fresno growers; Guy Barham of Los Angeles, Frank Mayhew and James Borland, Collector Muenster of the first district and B. M. Thomas, Internal revenue agent, agreed with the California growers that the existing regulations imposed great hardships and practically throttled the industry. Among the regulations were paragraphs prohibiting the other exactions which, if followed, would force some wineries to the wall.

SHE WEDS FIRST MAN SHE MEETS.

GIRL SPENDS NINETEEN YEARS WITHOUT ADDRESSING MALE.

Born and Raised in Community of Women Believing Marriage a Sin. When Introduced to Friend of Companion Who Ran Away from Home Is Crazy to Be His Wife.

CHICAGO, April 14.—[Exclusive.] Back of the wedding of Miss Adah Pratt of No. 147 Irving street, Washington, D. C., and B. Franklin Hoover of this city last Saturday, lies a most unusual romance.

Miss Pratt lived nineteen years without speaking to a man. She was born and raised in a community of women, she believed that marriage was a sin. Then she married the first man she ever spoke to.

Nearly thirty years ago a Mrs. McWhirter of Waco, Tex., declared she had been visited by the Almighty who told her that it was sinful for a woman to live with a man. Gathering about her a small party of women whom she had converted to her belief, she established a community at Belvidere, called "The Woman's Commonwealth." Men were rigidly excluded.

Men on Shore Leave Stay Overnight and Find City Painfully Overcrowded.

Hundreds of Visitors Walking Streets at Midnight Looking for Place to Lay Their Heads—Ten Special Trains Bring Multitude to San Diego Eager to Be Among First to Welcome Homecoming Fleet.

(BY DIRECT WIRE TO THE TIMES.)

SAN DIEGO, April 14.—[Exclusive.] Hundreds of men, who were given liberty this afternoon from various ships in the fleet, and they enjoyed the sights in the city. But when they came to find rooms for the night, only a few were able to get accommodations, and there were all kinds of makeshifts. The headquarters of the committee was visited by a number of warrant officers and men late at night, begging to be shown where to sleep, and George Peery helped many to quarters.

When 5000 men are given shore leave in Los Angeles, there will be the same demand for rooms as here. Committees here have arranged for the influx of visitors, but it never occurred to them that there would be such a demand for rooms by the sailors themselves, and they are confronted with a serious problem.

HUNDREDS WALK THE STREETS. Hundreds of persons are walking the streets here at midnight, looking for rooms.

STEAMER OVERLOADED. The sailors of the fleet were very much interested in the appearance of the steamship State of California. It was literally black with people and listed thirty degrees to port as the people crowded to the side to watch the ships. The water almost found its way into the ports, but the sea was almost like a pond and there was no accident.

Col. Ira C. Copley received a message from Gov. Deneen today, asking him to represent Illinois in the reception to the fleet. Col. Copley is on the staff of Gov. Deneen, and Illinois was represented. Commodore Barker Burnell, formerly of Nantucket, was in charge of the press boat, Dolphin, Capt. E. O. Lutz.

PLANS FOR PARADE.

In spite of great pressure brought to bear upon the admiral to change the route of the parade tomorrow, the original plan prevails. Today Grand Marshal Maj. Hugh C. Gwyn held a conference with Lieut. McFarland, in command of the artillery at Fort Rosecrans, and the original plan and line of march was indorsed. Then, with Lieut. McFarland, Maj. Gwyn submitted the plans for the day to Capt. Schroeder, who will command the boat sailors and marines in the parade tomorrow, and the plans were announced as satisfactory.

An incident of the day was the chase and capture by Dr. McKay, in command of the quarantine station, of the steamer St. Denis on the way from Ensenada with fifty-four passengers. Dr. McKay was on the way to the flagship in the Penguin with the chairman of the various committees from San Diego when he spotted the St. Denis coming to port. He blew the signal to lay to, but the St. Denis paid no attention and then the chase began. When he finally ran the bigger steamer down, he found the health bill clear and gave the steamer pratique. The Long Beach with 130 passengers, was also given a clean bill of health.

Among the Los Angeles people at the Hotel Keystone are Rev. and Mrs. John L. Pitzer, and Miss Helen Pitzer; Rev. W. D. White, Mr. and Mrs. H. P. McCray, Prof. C. M. Hill, Hugh C. Gibson, R. K. Wheeler, C. C. Coleman, Mr. and Mrs. W. H. White and F. D. Wellman of Pasadena.

TO UTILIZE SAGEBRUSH.

Indiana Business Men Finance Company to Obtain Potash from Vegetation of Western Deserts.

WASHINGTON, April 14.—[Exclusive.] Sylvester Spaulding, an employe of Reid, Murdoch & Co. of Chicago, has patented a process that will convert the sagebrush of the western wastes into millions of money and utilize it in a scientific method.

A company of Hammond business men will incorporate for \$250,000 to erect a plant in Nevada, which will make the utilization of the sagebrush possible. The product is potash obtained from wood by the Spaulding process.

Sixty-one per cent. of potash is found in sagebrush ashes, where ordinary wood ashes contain only 21 per cent. This is due to the fact that the desert plants take up more mineral than those which do not grow in an alkaline soil. In addition to potash, wood alcohol, oil cresote and acetone are by-products obtained from the sagebrush.

SELLING AUTO.

Moto-Bloc Driver, Broke,

Heavy Duty Due on French
Car in Big Contest.

Ill-Luck Pursues Racer Even
After Quitting.

(BY DIRECT WIRE TO THE TIMES)
SAN FRANCISCO, April 14.—(Exclusive Dispatch.) The United States customs officials are looking for \$4500, the duty on the Moto-Bloc racing car that was sold in this city at auction last Saturday, in violation of the terms of the bond under which it entered this country, but they have not yet decided whether they will take it out of the machine or the bondsman in New York.

The French driver of the car, Godard, received a cablegram from the owners last week reading: "Quit race, sell car, and come home." Godard was willing to do all these things, but he was compelled to wait until the car had been sold. He engaged E. Curtis, auctioneer, to hawk the machine, and it brought \$1500 in front of the salesroom on Van Ness avenue.

The ostensible purchaser was C. E. O'Brien, a chauffeur, who was merely buying the car for H. A. Cohen, a mining man. While the sale was going on, Attorney A. R. Cotton, who had run all the way from his office in the Kohi building, arrived, and demanded \$600 for an Iowa farmer who had hauled the French car half-way across that State through the mud, and had founded several valuable mines in performing the work.

Godard submitted to the payment of the bill out of the proceeds of the sale, and departed with the other \$1000.

As the car is valued at \$10,000, the duty would be \$4500, and the government will probably collect this from the bondsman.

Senator Fulton, Produces Telegram
from Binger Herman Bearing Out
Strong Contradiction.

(BY THE ASSOCIATED PRESS—A.M.)
PORTLAND, April 14.—A special to the Oregonian, from La Grande, Ore., says that United States Senator Charles W. Fulton, in his address last night in the strongest language denied the truth of the charges made by Henney, in his Portland address, Saturday night. In support of his denial, he read a personal telegram from Binger Herman, formerly Congressman, and formerly commissioner of the General Land Office, in which Herman bears out Fulton's denial.

DENIES ILLNESS.

EX-GOV. MURPHY IS WELL.
(BY DIRECT WIRE TO THE TIMES)

PRESCOTT, April 14.—(Exclusive Dispatch.) Ex-Gov. N. Oakes Murphy is indisposed over a report that he is seriously ill or has been. He was reported to be suffering with yellow consumption at Castle Hot Springs, but he declares that he has not been to the springs for months and then only for a day. He denies that he is in politics and says he would not accept nomination for any office. He is in his usual health. He expects to leave for Los Angeles in a short time.

RAIN IS PREDICTED.

FARMERS NEED MOISTURE.
(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, April 14.—After nearly five weeks of dry weather the indication today as reported by the weather bureau is that showers may be expected tonight throughout the State, though a heavy rain is not expected. Rain is needed in the farming districts, as it would be of much benefit to crops. There has been less snow in the mountains than is usual at this time of the year.

TAXPAYERS WIN.

ELECT EX-TICKET.
(BY THE ASSOCIATED PRESS—P.M.)

HANFORD, April 14.—The election in this city resulted in the success of the entire taxpayers' ticket, which was opposed by the city government ticket, representing the prohibition element. The taxpayers' candidates are unpledged. They were elected by a heavy majority.

The trustees elected are E. L. Barney and D. Gamble; Clerk, J. A. Hill; Marshall, A. M. Frederick; Treasurer, F. R. Light.

The fifteen freeholders to form a new charter elected were all on the taxpayers' ticket except one. It is probable the result of the election will be more stringent control of the liquor traffic, and the driving out of illegal gambling.

SLOPE BRIEFS.

Saloons Win in Merced.

MERCED, April 14.—A fierce struggle was fought in yesterday's city election over the saloon question, the saloons winning by forty-one majority out of a total vote of 610. Over a hundred women voters at the polls day in the interest of the temperance cause. S. C. Cornell and Ben Murnighan were the heavy "Nix" forces. M. M. French, Marshall, J. D. Wood, Clerk, and J. B. Hart, Treasurer.

Saloons Win Two Towns.

OAKLAND, April 14.—Town elections yesterday resulted at Hayward in the defeat of the anti-saloon forces, and of the Sunday-closing plan. At Richmond the union-labor candidate for town trustees, said to favor a "wet" town, was successful. Elsewhere no special issues were involved. Hayward returns show the election of the saloon ticket, so-called, by a large majority.

To Surrender Deserter.

FRENDEN, April 14.—Sheriff Chittenden has received instructions to deliver to the nearest military post Abner Stephenson, deserter from Jefferson Herack, Mo., who recently gave himself up here, saying that he had committed a burglary at St. Louis.

SMALLPOX
ON BOARD.

Two Hundred and Seventy-five
Passengers Must Now Go to
Quarantine.

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, April 14.—The Pacific Coast steamer Umatilla from Puget Sound ports with 26 cabin passengers and 139 in the steerage, arriving in the harbor this morning, was found to have smallpox aboard and the Federal doctors ordered her into quarantine at Angel Island.

A boy had become infected with the disease on the voyage down the coast, and as a result the passengers and crew of the steamer will be kept at the quarantine station for fourteen days.

Creating in this city. Hundreds of machines were shut out tonight.

Train Goes Through Bridge.

HELENA (Mont.) April 14.—A special to the Record from Glendive says that the North Coast limited train from Pacific City was derailed by running into a burned bridge. Fireman Gustavus and an unknown tramp were killed and several others were seriously injured. By a most narrow margin the airbrakes saved the engine from plunging into the gulch.

To Dam Big Muddy.

HELENA (Mont.) April 14.—Secretary of the Interior, Mr. Clegg, has received here today, has approved the plan for damming the Missouri River near here.

Prohibitionists Victorious.

SAN JOSE, April 14.—Los Gatos and San Jose yesterday voted to establish prohibition, though the lion element made desperate attempts to defeat it. Hollister voted "wet."

SUBIC BAY WINS THE DAY.

WASHINGTON, April 14.—The expected fight in the House over the question whether there shall be two or four battleships authorized for the coming year did not materialize today while the naval appropriation bill was under consideration. Instead most of the session was devoted to a lively debate in regard to the naval station in the Philippine Islands.

The supporters of Subic Bay, led by Messrs. Foss and Hobson, were victorious, despite vigorous opposition from both sides of the policy.

A special message from President Roosevelt urging both houses to read and elicit loud applause from the advocates of the proposition.

The naval bill was concluded when the House, at 5:30 p.m., took a recess until tomorrow morning.

ECHO OF SEA DISASTER.

Widower of Mrs. Mabel B. Lewis, Lost
on the Columbia, Sues for
Insurance.

(BY DIRECT WIRE TO THE TIMES)
SEATTLE, April 14.—(Exclusive Dispatch.) O. S. Lewis, widower of Mabel B. Lewis, is suing in the Superior Court to recover from the Continental Casualty Company \$2500 for the death of his wife, who was drowned in the collision between the Columbia and the San Pedro, fifteen miles off the California coast, July 21, last year.

In his petition Lewis says his wife, before sailing from San Francisco, purchased a policy payable for full value in case of accidental death. He claims its policies do not cover death by drowning and that it is not liable for death outside the jurisdiction of the United States. The company sets up that if the woman died by accident at all at the time of her death on the high seas.

SNOW BLOCKS THIEVES.

RANCHMAN LOSES SAVINGS.

(BY DIRECT WIRE TO THE TIMES)

RENO, April 14.—(Exclusive Dispatch.) After a wild ride from Reno to the summit in an automobile, Angelo Servante and Savato Lufano found themselves, as by accident, in the heavy snow and were captured and brought back to Reno early this morning.

They are wanted here for luring their countryman, Serva Lasaro, into a confidence game and securing over \$5000, his savings of over twenty years of labor on a ranch. Lasaro was lured into a strange room, drugged and robbed of his money last evening.

He recovered in time to see Servante standing over him with his money in his hands. He started to fight and was struck on the head with a piece of pipe. He recovered after a few hours, reported to the police, a second automobile search and the race toward the Summit started.

CHAIRMAN NEW
ROASTS CHICAGO.

(BY DIRECT WIRE TO THE TIMES)

CHICAGO, April 14.—(Exclusive Dispatch.) Besieged with demands for tickets to the Republican National Convention in June, Chairman Harry New of the Republican National Committee today gave vent to his feelings, and criticized Chicago for its convention facilities.

"Chicago never should have been given the convention," he said. "There are several other cities in the country that could have given us better facilities."

"Chicago promised us room for 14,000 people. What do we get? I will give a cash bonus to any man who can seat more than 11,467 people in the Coliseum, which is the best building you have here. It may not sound just the right thing to say, but I am sorry that Chicago got the convention."

The secretary of the Senate came to the rescue of the situation by skimming through the document in short order, and a motion to adjourn ended the dilemma.

The message was a brief, but vigorous, contention for the rapid development of the navy. China was held up as an example of a nation that was having the navy policy to be evaluated. It was contended that the result of the last Hague conference made it plain that the nations would not for some time, if ever, agree on a plan of limitation of naval armament.

RUEF JURY
BOX IS FULL.

Six Expected to Be Peremp-
torially Challenged.

Trial Twelve May Be Secured
by End of the Week.

One Man Is Found Who
Knows Nothing of Case.

(BY DIRECT WIRE TO THE TIMES)
SAN FRANCISCO, April 14.—(Exclusive Dispatch.) After seven days of monotonous court proceedings and examination of fifty-three citizens, twelve jurors have been finally secured, subject to peremptory challenge, in the Ruef parkside bribery case. The prospect is that by the end of the week, Ruef will find himself facing a jury.

The peremptory challenges will be exercised tomorrow morning. The jury appears to be satisfactory to the prosecution except one man, while the defense is expected to use four or five of its peremptory challenges. Six of the twelve jurors in the box, it is figured, will be excused and the work of securing the remainder will occupy the rest of the week.

The jurors needed to make up the full number were secured today from fourteen veniremen.

Oliver Christenson, the last juror accepted, seems to be an ideal ignoramus. He is a retired sea captain and hadn't heard of the case until he was called to the jury box.

He said his vote wouldn't be affected by the votes of his fellow jurors.

PRESIDENT'S MESSAGE
IS SCARCELY HEARD.

Executive's Argument in Favor of
Four New Battleships Read Amid
Confusion After Considerable Delay
In House and Senate.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, April 14.—The message of the President in support of his plan for an appropriation for four new battleships concerning which there has been so much speculation, was received today by both houses of Congress.

There was considerable delay in the reading of the message in both the Senate and the House. In the Senate, the message was read by Mr. Clegg, secretary of the Senate.

In making his Brownsville speech when the document was received, and in the House because that body was in committee of the whole on the Naval Appropriation Bill.

That the message was designed to influence the House to increase the number of battleships provided for in the naval bill from two to four, was generally understood. The dispatch of the message was intended to be so timed as to reach the House just before taking up that provision.

FIGHT FOR DELAY.

The debate on the Naval Appropriation Bill was on when the message arrived, and it quickly became known that the anticipated document had reached the House. All sorts of questions were asked of the floor leaders as to the delay in the reading of the message.

Under these circumstances I felt that the construction of one battleship for each of the two oceans was a year in the past and a year in the future. I am now referring to the loss of life. It is probably a conservative statement to say that within the next twelve years, at periods of peace and war, there will be a loss of life in the world which will be equal to the loss of life in the world during the last century.

This image shows the fore-edge of a very thick, antique book. The pages are numerous, tightly packed, and exhibit extreme age through their dark, mottled, and uneven coloration. There are visible signs of physical damage, including several tears, missing fragments of paper, and areas where the binding structure appears compromised. The right side of the image is dominated by a solid black area, which likely represents the inner cover or the binding of the book, contrasting sharply with the textured, light-colored edges of the pages.

NEW MEXICO DEMOCRATS
EYES AT JOHNSON

Territorial Central Committee
However, Indiana National
Campaign Will Be the Most
Important and Largest in the
History of the State.

SANTA FE (N. M.), April 13.—(Exclusive Dispatch.) The Territorial Central Committee meeting in this city yesterday afternoon was a very important one. It was the first meeting of the committee since its organization, and it was held in the presence of a large number of the leading citizens of the territory.

At the meeting, the committee discussed the various matters which had come before it, and it was decided that the committee should continue its work with vigor and determination. It was also decided that the committee should hold a public meeting at an early date, and that it should issue a statement of its views on the various matters which had come before it.

This was because of the recent action of the committee in the matter of the election of the territorial governor. The committee had decided to support the candidacy of William J. Johnson, and it was now necessary for it to issue a statement of its reasons for doing so.

Encouraged by the gains made in the election, the committee decided to continue its work with vigor and determination. It was also decided that the committee should hold a public meeting at an early date, and that it should issue a statement of its views on the various matters which had come before it.

HEARTS BEAT PROUDLY. (Continued From First Page.)

There were many pretty girls aboard, and they sang and waved their handkerchiefs and the sailor boys waved back again.

Fred Dor's "Yankee Girl," with many other "Yankee Girls," sailed around the Connecticut again and again. Mr. Dor and his large party of guests did not arrive from San Pedro until after the first fast anchor, but they made up for the delay by their welcome for that, and the girls danced before the envious eyes of the boys who lined the rails, swarmed over the turrets and clustered in the tops. They were almost the first real "Yankee girls" they had seen for months and every man of them looked as though he would like to fall in love on the spot.

Upon the departure of Gov. Gillett, the flagging fired the salute of seventeen guns. "He outranks an admiral," remarked a warrant officer grimly, in a tone which expressed what his idea of the importance of an admiral was. Upon his return to the Hotel Del Coronado, the Governor said:

"This is a great day, a historical day, for California."

Then Gov. Gillett, somewhat pale from fatigue, for he was far from well when he started upon his visit of welcome, retired to rest before the festivities of the evening commenced.

During the day the Free Fruit Committee, headed by E. J. Sweeney, distributed among the battleships a lighter load of oranges. During the time the fleet remains here the golden fruit will be at hand for all the sailor boys who desire it.

FLOOD.
BIG DAM ACROSS
MISSOURI OUT.

FLOOD OF WATER SWEEPING
DOWN MONTANA CANYON.

"Two Hundred and Fifty Feet of \$2,000,000 Structure Washed Away and Power House is Submerged. Craig is Destroyed. When Twenty-two Feet of Water Arrives."

BY DIRECT WIRE TO THE TIMES.
HELENA (Mont.) April 14.—(Exclusive Dispatch.) Two hundred and fifty feet of the 490 feet of the Hauser's Lake dam across the Missouri River near Helena, Mont., was washed away this afternoon, and so far as known no lives have been lost. The waters of the river, which had been backed up to a distance of within eight miles of Helena, are now pouring over the dam, and are expected to reach the city in a few days.

The power-house, a structure 20 feet high, is under water, thus indicating the rise of the water that has been seen down the valley toward Great Falls, where are located the smelters of the Boston and Montana Company.

The dam was completed only a year ago at a cost of \$2,000,000, and the 200 horse power developed was utilized by local industries, the Butte smelter and the Washoe smelter at Anaconda.

It is impossible to assign a positive cause for the breaking of the dam, but it is believed that the water, which had been backed up to a distance of within eight miles of Helena, was the cause of the disaster.

The great danger is feared at Great Falls, where the proximity of the smelter to the river bed and where also electrical power was extensively developed.

Superintendent H. L. Burdell, of the Rocky Mountain Bell Telephone Company, reported that the water, which had been backed up to a distance of within eight miles of Helena, was the cause of the disaster.

The breaking of the dam will result in the loss of the power which had been developed at the dam, and it is feared that the water will reach the city in a few days.

General Manager Garry tonight said that the estimated loss at \$200,000, but that the dam would be rebuilt immediately. The breaking of the dam will result in the loss of the power which had been developed at the dam, and it is feared that the water will reach the city in a few days.

ABRAZZI TO BE RETIRED.
Duke Will Not Be Required to Serve Another Year in Navy in the Latest Report.

WASHINGTON, April 14.—(Exclusive Dispatch.) The Duke of Abruzzi, who is to be retired from the navy, is reported to have been given the rank of admiral, and it is believed that he will not be required to serve another year in the Italian navy, according to reports from Rome, purporting to contain orders to that effect.

It was made known here some days ago, and reiterated tonight, that the Duke will be retired from the navy as vice-admiral, probably next September, shortly after his attendance at the maneuvers in German waters. His advancement will follow the retirement of his uncle, now vice-admiral, and will be in line with the custom of members of the royal family.

At the present time, the Duke of Abruzzi has not been made of the engagement of the Duke to Miss Elkins. It has been made known that the wedding will take place abroad, following the retirement of the Duke, probably in October.

NEW INDICTMENT AGAINST BROWN.

J. DALZELL ROBERTSON ACCUSES
FOSTER BROTHER.

One Ex-Official of the Lusted California Safe Deposit and Trust Company Blames Another. Before the Grand Jury and New Charges Are Issued Promptly.

BY THE ASSOCIATED PRESS.—P.M. SAN FRANCISCO, April 14.—J. Dalzell Robertson, one time assistant secretary of the Lusted California Safe Deposit and Trust Company and a witness before the grand jury this afternoon, warranting the filing of a new indictment against his foster-brother, J. Dalzell Brown.

The charges against Brown is that he falsified the general cash book of the bank with the deliberate purpose of deceiving the bank commissioners in their examination of the affairs of the institution. This is the offense for which Robertson was indicted several weeks ago when he was in hiding in New York.

Today's proceedings were the culmination of an examination which was begun weeks ago, when the grand jury called before them most of the officers of the California Safe Deposit and Trust Company as well as members of the Bank Commission.

Robertson had to admit that he had been the tool in his foster-brother's hands, and that he had been used to falsify the general cash book of the bank and his superior in the institution's administration.

As soon as Robertson completed his recital, the grand jury voted a new indictment and carried the document to Judge Huntington's court. Brown still remains in the County Jail, being unable to raise the money needed to allow him temporary liberty.

DEATH MAY END PROSECUTION.
Husband Killed in Auto Accident While in Denver to Push Case Against Alleged Embezzler.

BY DIRECT WIRE TO THE TIMES.
DENVER (Col.) April 14.—(Exclusive Dispatch.) Clinton O. Heath, brought back to Denver from Los Angeles, as a charge of embezzling \$25,000 from Mrs. Margaret Stuffed, an aged New York woman, who had intrusted her funds to Heath for investment, may escape conviction as the result of the sudden and violent death of Walter Husted, son of Mrs. Husted and a prominent clubman of Boston and New York.

Husted, who was sent to Denver by his mother to give his personal attention to the prosecution of Heath, was killed last week with a party of young society men and women. The killing was reported at a residence, where the party made merry for hours, and on the return trip the automobile was disected by one of the party, who was acting as chauffeur, and all were thrown out. Husted sustained injuries which ended his life.

DENIES CALIFORNIA THEFT.
New Orleans Prisoner Charged With Having Embezzled \$500 from San Bernardino Woman.

BY DIRECT WIRE TO THE TIMES.
NEW ORLEANS, April 14.—(Exclusive Dispatch.) Although protesting innocence, George W. Wagner, N. K. 42, Baronne street, arrested last night on the charge of having embezzled \$500 from a woman in San Bernardino, Cal., was held until officers can arrive from California to take him home. A telegram stated that officers have already left there for this city. The arrest was effected on a description sent here by the San Bernardino police.

Wagner refused to give any details about himself and contented himself with protesting his innocence of having embezzled the money.

SAFEGUARDS HER SILVER.
Mrs. Alfred G. Vanderbilt, Soon to Be Divorced, Gets Valuables in Chests From Husband's Vault.

BY DIRECT WIRE TO THE TIMES.

Mrs. Vanderbilt, soon to be freed from the name of Vanderbilt, has had her silver in big chests removed from a bank, the held in the name of her husband, and has had them in the vaults of the trust company in her own name, and in which her husband has no interest.

FRUIT CANNERS ELECT.
SAN FRANCISCO, April 14.—The California Fruit Canners' Association, at the annual meeting of the stockholders held today, received the reports of the business of the past year and elected officers.

President William Fries reported that the past year was the most active in all branches of the work, and that in the output and distribution new records have been established. The association reported a net profit of \$100,000, the largest in the history of the association, and that in the face of the money stringency.

The following officers were elected: President, William Fries. Vice-president-treasurer, S. Goldstein. General manager, R. I. Bentley.

CAUGHT BY AVALANCHE.
VANCOUVER (B. C.) April 14.—(Exclusive Dispatch.) Four Japanese railway workmen were killed and a dozen badly injured by an avalanche and a dozen badly injured by an avalanche and a dozen badly injured by an avalanche.

The avalanche occurred on the mountain side of the railway, and it was reported that the workmen were caught by the avalanche and a dozen badly injured by an avalanche.

Two days ago a thaw started in the mountains, and many slides occurred. Forty Japanese were asleep in two boarding-house cars when they were overwhelmed. The cars were on a slide when the avalanche came down it, picked them up and carrying them over a cliff, rolled them into the valley below.

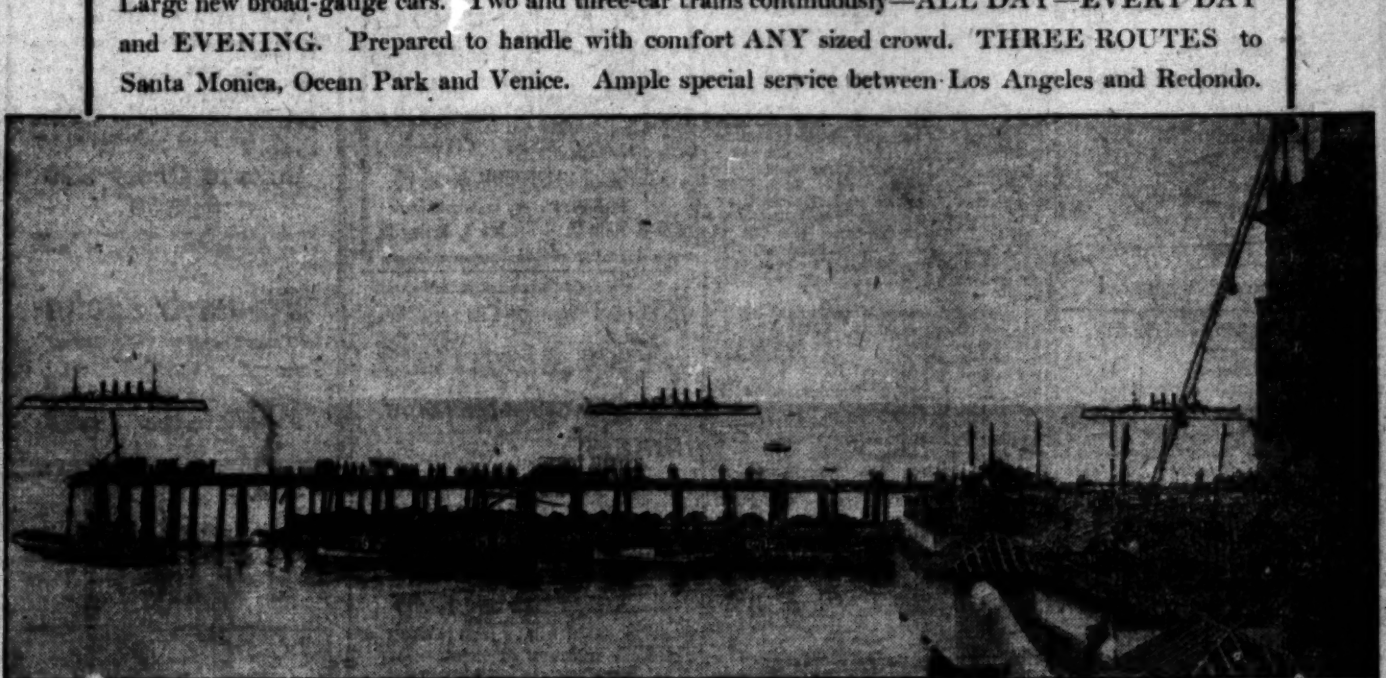

Relief crews were quickly on the scene and with the men who escaped, injured the bodies of the dead and injured were secured.

MEET AFTER HALF CENTURY.

Brothers, Separated in New York State as Children, Are Reunited Here as Grandfathers.

Separated in 1854, when one was 16 and the other a baby of 5 years, William H. Parker of Calumet, Mont., and F. A. Parker of No. 70 West Thirtieth street met again yesterday for the first time. William Parker is 64 years old; F. A. Parker is now 55.

Both were born on a farm near Utica, N. Y. Their father was William Parker, one of the contractors who dug the Erie Canal.

In 1854, when F. A. Parker was 2 years old, his brother left the farm and started West to seek his fortune. By gradual stages he worked westward until, in 1860, he reached Los Angeles. He remained in California until after the Civil War, serving on the frontier in the Third California Volunteers.

After he was sent to Nevada, where he engaged in mining. Later he moved to Montana, took up land and amassed a comfortable fortune as a ranchman. In all those years he never found an opportunity to return to his old home in the East, though he kept up a correspondence with his family.

F. A. Parker moved to Brooklyn, N. Y., and adopted a business career. He also forced well and built up a comfortable fortune. Then he concluded to come West, and eight years ago he took up his residence in this city.

An Irishman, out of work, went to a carpenter superintendent asking for work. The following conversation passed between them: Superintendent: Can you do carpenter work? Pat: Yes. Superintendent: How would you do it? Pat: With my finger and thumb.

An Irishman was returning to his own country after a long absence, and as the green hills and valleys home in sight, he became very enthusiastic. "Hurrah for Ireland!" he cried. "Hurrah for Ireland!" he cried. "Hurrah for Ireland!" he cried.

That's right," said Pat. "I've got a lot of money in my pocket, and I'm going to spend it all in Ireland. I'm going to spend it all in Ireland. I'm going to spend it all in Ireland."

SAVES HOME ON BUSINESS.
Attorney Severance, for Interstate Commission, Here for a Week With Mrs. Severance.

C. A. Severance, who is an attorney for the Interstate Commerce Commission, and who has figured in two recent investigations into alleged rebating and undue influence on the part of the Interstate Commerce Commission, is here for a week with his wife, Mrs. Severance.

Mr. Severance came West, he says, to meet Mrs. Severance, who has been in California for the last few months on account of illness. She came with the account of illness. She came with the account of illness.

"I am not here on any business of any nature whatever," said Mr. Severance yesterday. "I dropped business in California, and am here solely to accompany my wife. I have paid no attention to any phase of the Santa Fe debate cases in this city, and do not intend to."

Mr. Severance emphasized the fact that he is not here as an attorney for the Interstate Commerce Commission.

FATALLY ASSAULTED.
Prisoner in "Drunk Tank" at the City Jail Dies from the Effects of Suffering.

Assaulted in the "drunk tank" of the City Jail last Monday night, John Emmon, aged 46 years, died of his injuries about 11:30 o'clock last night at the County Hospital. He received a blow on the head from a fellow prisoner, and the blow caused partial paralysis of his arm and leg.

An investigation of his case will be made by the Coroner at an inquest tomorrow.

Emmon was arrested on Main street by Patrolman Alvarado on the charge of drunkenness. He was placed in the "drunk tank," and Tuesday morning was unable to respond to the call for breakfast. He was taken to the County Hospital and examined by physicians. It was stated that he was suffering from paralysis of his arm and leg, and that he was unable to talk and shortly after going to the County Hospital he became unconscious.

MAY SURPRISE DOCTORS.
Alexander Parquet, who fell from a scaffold in the Masonic Temple, Guerrero and Pico streets, Monday afternoon, and fractured his skull, is now in the County Hospital, where he is being treated by Dr. Parquet, who is a much stronger and his condition improved. It is believed he has a possible chance to recover.

Gathering Snake Venom.

Snake venom is one of the strangest as well as most costly articles of commerce. There is a growing demand for it in medicine and other branches of science. A large part of the supply comes from Australia, and a Sydney dealer classified the market price recently at \$1 to \$2 a grain, or about \$20,000 a pound.

Snakes are now being bred in cages, and the venom is being collected from them. The snakes are kept in cages, and the venom is being collected from them.

ANTI-LIQUOR MEN REPLY.
Young People's Christian Temperance Union Issues One to the "Booze" Pastors.

In answer to the posters with which some one has placarded billboards in the interest of the liquor element, a poster bearing the name of the Young People's Christian Temperance Union is being placed in a number of windows. It is a neat affair in two sections, one containing a picture of a boy and girl standing under the Stars and Stripes, and above them the legend, "The Saloon Versus the Boys and Girls—the Real Issue."

On the other piece the reader is informed that "the liquor business claims to consume \$200,000,000 of farm and manufactured products annually, but the total farm and manufactured products are eighty-five times such amount, or \$2,000,000,000. How little the market would feel the loss of the whiskey business! Also, if the money now spent for liquor were spent for necessities and comforts every line of business would increase."

"Besides," says the next line, "the saloon will debauch your boy."

The liquor men's claim to "pay \$4,000,000 to labor annually" is answered by the assertion that "manufacturers alone pay forty-eight times as much to labor, or \$2,000,000,000," and the statement that if the vast amount spent for liquor were spent for groceries and dry goods, from two to ten times as many men would be given work as are now in the saloon business.

The reader is then told, "On the other side, the saloon will ruin your girl."

To the whiskey men's claims to pay \$2,000,000 annually in revenue, the reply is made that the "waste directly due to the whiskey trade is more than \$24,000,000, or 35 paid out for every dollar of revenue taken in." The poster concludes with the words, "No nation can prosper on licensed debauchery. Get rid of the saloon."

PUBLIC SERVICE OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Board of Public Works awarded to the Southern Pacific yesterday the contract for carrying all aqueduct freight shipped by rail; the Espas agreed to build its line into the Owens Valley at once, and the engineers say this means a saving to the city of \$1,000,000 in freight tariffs.

The Mayor ordered an investigation yesterday of all places conducted by mediums and fortune tellers under a city license.

L. E. Jones yesterday refused to answer questions put to him during the trial of Mr. and Mrs. E. C. Strickland's action against J. H. Beck and the Title Insurance and Trust Company, in which the court granted a non-suit.

Depositions and testimony by many witnesses to show that Frederick D. Cook is insane, were presented by the defense in Judge Smith's court yesterday in Cook's trial for the murder of his divorced wife, Mrs. Amanda Cook, August 27, 1932.

T. Jeff White will appear before Judge Wilbur this afternoon in habeas corpus proceedings brought by Mrs. V. M. Cutch to regain possession of White's child, Anna, taken from her by White last Thursday.

C. W. Beard and witnesses in his defense, on a perjury charge, attacked Attorney C. E. Ladd's testimony before Judge Conroy yesterday.

Mrs. Kittur B. Osborn was bound over to the Superior Court by Justice Boardman on a charge of obtaining money by false pretenses from S. E. Larkin.

AT THE CITY HALL.

VALLEY ROAD NOW ASSURED.

SOUTHERN PACIFIC TO HAUL ALL AQUEDUCT FREIGHT.

Will Build Line from Mojave to Red Rock Before First of July. Means Cut-off from Reno to Los Angeles—Saves City Largely in Freight Tariffs.

The Board of Public Works awarded to the Southern Pacific Company yesterday afternoon a contract to transport all freight shipped by rail for use in the construction of the Los Angeles aqueduct. The Southern Pacific agreed to build a railroad from Mojave to Red Rock, a distance of 100 miles, and to haul all aqueduct freight at a rate of 4 cents per ton mile. Chairman Hubbard of the board says that this price is 20 per cent lower than the bid made by the Southern Pacific Company last January, and that it means a saving of \$1,000,000 to the city.

A bid lower than that of the Southern Pacific Company was submitted by the Los Angeles and Owens Valley Railroad, but this bid was not accompanied by a certified check as required by the charter, and was rejected. One of the commissioners said yesterday afternoon that litigation may follow the rejection of this bid, but that it is the opinion of the Advisory Committee that it was submitted regularly for the express purpose of putting a thorn in the side of some one else.

"I was very glad to see it, even though it is irregular," said Chairman Hubbard. "My greatest regret is that the city is not able to get a lower offer than the one from the Southern Pacific Company."

"My greatest regret is that the city is not able to get a lower offer than the one from the Southern Pacific Company," said Chairman Hubbard. "My greatest regret is that the city is not able to get a lower offer than the one from the Southern Pacific Company."

The contract stipulates that the successful bidder shall build the first part of the line to Red Rock, a distance of twenty-three miles from Mojave, within sixty days after the signing of the contract, and that the road shall be finished within two and one-half years. One clause in the contract gives to the Southern Pacific Company the exclusive routing of all freight from Mojave to Los Angeles, and the rate per ton mile shall be as low as that offered by any other company. In return for this exclusive routing, the Southern Pacific Company is reported to have reduced its bid 1 cent per ton mile; this means a saving of \$100,000 to the city at the aqueduct engineering estimate that the total freight hauled over the new road north of Mojave will be equal to 20,000,000 ton miles.

Commissioners of the department of public works breathed a sigh of relief when they received the report of the Advisory Committee of the aqueduct recommendation that the bid of the Southern Pacific Company be accepted. The engineers have estimated that it would cost the city 10 cents a ton mile to build a railroad into the Owens Valley along the route of the aqueduct; they estimate that it would cost the city 20 cents a ton mile to transport the freight by team.

Explaining why so short a time limit was named in building the first section to Red Rock, Gen. Chaffee said that the engineers have reported that the delay in building the road is now costing the city \$100 a day.

The board exercised caution in its action making the award to the Southern Pacific; it was evident that the commissioners were exercising special care that no opening should be left for a suit to annul on the ground of irregularity. The following report from the Advisory Committee, recommending the award of the contract to the Southern Pacific Company, was spread upon the minutes of the board:

It appears to the committee that the bid of the Los Angeles and Owens Valley Railroad is irregular in the following particulars: It is not accompanied by a certified check as required by the charter; it is not accompanied by a letter from the bidder which the committee is required to receive as a part of its proposal; and it is not accompanied by the cash of \$100,000 as required by the charter.

The board shall be built-upon the Mojave Railroad twenty miles east of Mojave, and that the bidder would undertake to build the section of the railroad from Mojave to Red Rock, "providing fair and reasonable conditions are made for the construction of the first section." The bidder stating that the construction of the same within sixty days, as required by the specification, is a promise.

These facts render the bid irregular and irregular in the following particulars: It is not accompanied by a certified check as required by the charter; it is not accompanied by a letter from the bidder which the committee is required to receive as a part of its proposal; and it is not accompanied by the cash of \$100,000 as required by the charter.

The committee is of the opinion that the bid of the Southern Pacific Company is the only one that is regular and that it is the opinion of the Advisory Committee that it was submitted regularly for the express purpose of putting a thorn in the side of some one else.

The Southern Pacific Company made surveys of a route for a railroad from the Owens Valley before the aqueduct project was broached. This line will connect with a narrow-gauge line

owned by the Southern Pacific, extending from Keeler, in Inyo county to Reno, Nev.

When the connecting link between Mojave and Keeler is finished, it will be a narrow-gauge line leading north from Keeler, will be rebuilt as a standard-gauge. It will be a cut-off for the Union Pacific Company, and will obviate the necessity of shipping freight cars to the city of Sacramento. In addition to shortening the line east 100 miles, it will cut out of the heaviest grades in the Sierra.

"The advantage of the line to Southern California will be worth a great deal more than the whole sum the city will pay for carrying freight on the aqueduct," said a commissioner. "It will open up to the Los Angeles market a vast territory that has heretofore been tributary to San Francisco; in place of shipping through San Francisco to Los Angeles, it will mean shipping through this city to San Francisco."

TO EXPOSE FAKERS. SAYS MEDIUMS ARE SHARPPERS. Acting on a recommendation for the Chief of Police, the Police Board appointed a special committee yesterday to investigate the conduct of a number of places run by slate-writers, trance mediums and others of their ilk under a city license.

G. T. Armstrong sent a communication to the commission to the effect that these mediums and fortune tellers have exerted an evil influence over his sister; he asked that some official action be taken to drive them out of business.

Chief Kern said that they all operate under a license provided for by ordinance, and granted by the Police Board. The license says that in many complaints come to the police department from persons who claim to have been victimized by these mediums and their associates. He suggested that the number might be reduced by increasing the monthly license from \$20 to \$50.

Mayor Harper replied that the probable effect of the proposed increase of the license would be to drive the poorer ones out of business and to provide richer pickings for those able to stand the rise. He appointed a special committee to investigate the places holding a city license for exercising any kind of occult power or influence.

"ALL GOT BLACK." SAYS SLAYER.

COOK'S FRIENDS THOUGHT HIM MAD MANY YEARS.

Man on Trial for Killing Wife Pleads Mental Aberration and is Supported by Testimony of Relatives and Former Employers. Realty Dealer Refuses Answer.

"After my wife and I started for Los Angeles from Ocean Park, I saw a man who had refused to introduce me to go to thinking over it. It was not got black any I do not remember what happened," was the conclusion of a statement by Frederick D. Cook, which was read yesterday afternoon in Judge Smith's court during his trial for the murder of his divorced wife, Mrs. Amanda J. Cook, on a Santa Monica car, August 27, 1932.

C. J. Salamon, who took Cook's statement at the County Jail some months ago, read it to the jury, as the accused man was not placed on the stand. Cook stated that his wife had been unfaithful to him, that in Boston she had been living with a man named Gilbert E. Collins and that he had found a butcher knife under her pillow, that she had once threatened to run a sword through his back, and that she had confessed her unfaithfulness to him while she was at the Detention Home.

The statement was read in full, and then the jury was told that Cook had confessed her unfaithfulness to him while she was at the Detention Home. The statement was read in full, and then the jury was told that Cook had confessed her unfaithfulness to him while she was at the Detention Home.

"I have known Cook since 1874," testified V. L. Broth, a brother-in-law, "and have always thought him sane. One of his sisters, Mrs. John Flynn, told me that she had seen him in Boston, and that he had been living with a man named Gilbert E. Collins and that he had found a butcher knife under her pillow, that she had once threatened to run a sword through his back, and that she had confessed her unfaithfulness to him while she was at the Detention Home."

Samuel T. Paine, who employed Cook as a planter on the Huntington building in 1904, said the workmen all thought the man crazy and called him "D. Cook," a brother-in-law. This reference made Cook burst out laughing. He shook with mirth, stuffed his handkerchief into his nose, and for some time seemed oblivious to anything but the humor he saw in the testimony. It was the first time since the trial began that he had given a word.

W. S. Lemon, a builder, who had employed Cook some years ago, stated that he and his company had been mentally unbalanced from the first day he worked for them.

Mrs. E. Pratt, former matron of the Detention Home, stated that Cook had provided about home and several times made efforts to get in and see his wife, but that Pratt had kept him out. E. C. Quay, process server, testified that he had tried to find Bishop, who had struggled with Cook when he shot his wife, but the man had gone east.

Cook's attorneys say his charges against his wife's character were all the result of his insanity, as there was no ground for them. Mrs. Cook's friends strongly assert the same.

ATTACK ATTORNEY.

FIRE CENTERS ON HIS STORY.

"I never saw Mrs. Johnson's alleged will," testified C. W. Beard yesterday in Judge Conroy's court. During the trial on a charge of giving perjured evidence in July, 1906, during litigation over the Sarah Johnson estate.

Attorney C. E. Ladd's story is untrue, it is almost every point," said the witness. "When I took Mrs. Sherman to his office I introduced her as the daughter of the woman by whose dying bequest he stood about a week previous. At a meeting between the three in his office, Ladd once said to Mrs. Sherman: 'There is a will by Mrs. Johnson there; pointing to the office safe. He knew there was no will, yet he tried to make her believe

there was one." Beard was subjected to a long cross-examination but stuck to his story.

"After Beard was arrested last January," testified Miss May Sweeney, "I was alone at the Beard home and Ladd called up by phone and asked if he was standing guard. I said he had and he then said that he was going to have Mrs. Beard and the whole family arrested."

Attorney Ladd denied having made this statement. Mrs. Beard also testified that Ladd had threatened her to the same effect.

Several witnesses testified they had known Beard for a long time, and that he enjoyed a good reputation for probity and integrity. The case will probably go to the jury this afternoon.

Borrowed Money.

FEMALE FINANCIER IS HELD. Unable to furnish \$5000 bail, pending her arraignment in the Superior Court on a charge of obtaining money under false pretenses, Mrs. Keturah B. Osborn was committed to the County Jail yesterday by Justice Boardman.

"I loaned Mrs. Osborn \$5000 on a house and lot," testified Larkin. "Later, I found that the property she showed me was not a house and lot, but a vacant lot owned by her a block and a half away from the house. Instead of the piece of property she showed me, it was some time before I found out that she had loaned the money on the vacant lot."

Witnesses confirmed Larkin's story. Mrs. Osborn offered no testimony and was held to answer.

CONDEMNATION SUIT.

Trial of the suit brought by the City of Los Angeles against E. H. Winans and other owners of property in the sixty-foot strip between the present and former street adjoining the Courthouse grounds on the south, was begun before Judge Smith yesterday afternoon. The testimony regarding the value and the damages to be paid for the strip of the new hall of records was opened, and will be continuing this morning.

TRIALS SET. Holding that the raising of scrip constitutes a public offense, within the meaning of the statute, the trial of the City of Los Angeles against E. H. Winans and other owners of property in the sixty-foot strip between the present and former street adjoining the Courthouse grounds on the south, was begun before Judge Smith yesterday afternoon. The testimony regarding the value and the damages to be paid for the strip of the new hall of records was opened, and will be continuing this morning.

AUTO COMPANY SUE. Alexander A. Faucher yesterday filed in the Superior Court a \$5000 damage suit against the Auto Vehicle Company for injuries sustained by his brother-in-law, James Faucher, who was killed by a car driven by the company's driver, on January 23, last. He asserts that he was thrown to the ground by a rope connecting two of the defendant's automobiles, and that the driver of the car was not properly provided with lights.

GUARDIANSHIP. Mrs. Jessie W. Taylor yesterday filed in the Superior Court a petition for the appointment of a guardian for her minor son, Helmer Morris, now in Patton. She says that she holds \$7500 worth of the latter's property, which she wishes used for his maintenance and education.

ACCOUNTING. The trial of Emil Kirchner's suit against Otto Steinen and the Steinen-Kirchner Company for a partnership accounting, began before Judge Hutton yesterday. Kirchner asserts that since the dissolution of the partnership he has not been paid \$7500 in wages and expenses, and that the defendant entered a general denial.

LAND DEAL. Judge Conroy has overruled demurrers by Mr. and Mrs. W. F. Ward to D. B. Brock's \$100,000 damage suit against them and others. As the Wardens filed no answer, their default has been entered.

INFORMATION. The District Attorney yesterday filed in Judge Smith's court information charging Roy Corlies with burglary. The accused will be arraigned tomorrow morning.

INCORPORATIONS. Articles of incorporation were filed yesterday by the Adams Pipe Works, with capital stock of \$100,000; Pacific Equipment Company, \$20,000; Pacific News Company, \$100,000; Glass News Company, \$100,000; Mono Lake Oil Company, \$100,000; and the Pacific Institute of Los Angeles. The W. H. Hoeger Company filed a certificate of reduction of capital stock from \$200,000 to \$20,000.

GAS EXPLOSION. B. Cresswell, owner of the cafe at No. 114-115 West Second street, which was destroyed in the gas explosion of February, 1907, was awarded by a jury in Judge Boardman's court yesterday \$1500 damages. The \$15,000 suit against the Los Angeles Gas and Electric Company for the destruction of the restaurant.

SENTENCE POSTPONED. Former Coroner R. S. Lanterman's time for sentencing a woman convicted of a crime was postponed until this afternoon. The motion for a new trial was under advisement until this afternoon.

EXAMINATION SET. Ascension

Lara, arrested yesterday on a felony charge, was committed to the County Jail by Justice Stephens in default of \$1000 bail, pending his examination Friday morning. Mrs. Jora Grifolia, arrested on a charge of disturbing the peace at Clearwater, made by Mrs. S. Ogas, was released on her own recognizance until her trial, April 23, before Justice Pierce.

LAWYER SUES JUDGE. Attorney J. D. Reynert has filed in the Superior Court a \$17500 damage suit against Judge R. N. Smith. He alleges that since 1907, he was imprisoned in the County Jail for twenty-six days on a 100-day sentence and \$200 fine imposed by the court, and that of a charge of subornation of perjury. He asserts that he was released from custody on a writ of certiorari from the District Court of Appeal, and that his imprisonment was illegal.

SAYS NOTHING. NOTE CAUSES MUCH TROUBLE. "I refuse to answer on the ground that I may incriminate myself," said L. E. Jones of the Jones & Ryder Land Co. to Judge James yesterday when asked if he had been authorized to act as J. H. Beck's agent in a financial transaction with E. C. Strickland and his wife, Mrs. Loretta C. Strickland, Jones acted on advice of counsel in refusing to testify.

He was called as a witness in a suit brought by the Stricklands against J. H. Beck and the Title Insurance and Trust Company to enforce foreclosure of a \$3000 trust deed on the Strickland home in the Vermont tract.

The plaintiffs presented affidavits and testimony that in February, 1933, they bought the property from one Carlson Brown, the Jones & Ryder Land Co. as agents. At that time, Strickland swore, Jones represented to him that he could secure \$2000 on Mrs. Strickland's note secured by a trust deed on the property, and that she could pay off the note at any time she pleased before maturity.

A three-year note for \$3000 was executed, but in April, 1933, the Stricklands swore, they took up the note, paying Jones \$2225 by a check which was presented in evidence with the Jones & Ryder Land Co. affidavits. Strickland swore that he never saw or knew Beck until January, 1934, when he received a notice from him saying Beck held the trust deed to the property and that he would foreclose unless the principal was paid.

Strickland presented an affidavit that he had never authorized Jones to act as his agent, although Jones had secured from him the money loaned to the Stricklands. Strickland swore that he represented himself to be the Stricklands' agent in negotiating the loan, and that after making a check of the California title records, he had found the California title records, and at the time placed Strickland interest payments should be made quarterly to the bank. He said there were made punctually, and that he did not again communicate with Strickland until July, 1934, when he sent him a notice that another interest payment was due. Strickland replied, saying that his agent had been to town, but would attend to the matter. Strickland said he supposes Jones was the agent referred to.

He says further in his affidavit that he would not have loaned the money on any understanding that the note might be met before maturity, and that he never authorized anyone to make such an arrangement or to act as his agent in the transaction.

On motion of the defendant, Judge James granted a nonsuit.

Strickland, advised by his counsel, testified, because of a question as to the relative rights of the parties, that he had been to the California title records, and at the time placed Strickland interest payments should be made quarterly to the bank. He said there were made punctually, and that he did not again communicate with Strickland until July, 1934, when he sent him a notice that another interest payment was due. A. Jones, a mining man from Pennsylvania, who is now a resident of Los Angeles, has been very interested in the development of the Ramid Camp, near the mouth of the Colorado river, in the state of Arizona. He has just returned from a trip to the mine, and brings with him a large amount of information regarding the same. He states that the mine is situated on a high plateau, and is surrounded by a dense forest. The mine is worked by a small party of men, and the output is about 100 tons of ore per month. The ore is of a high grade, and is estimated to be worth \$100,000 per ton. The mine is situated on a large tract of land, and the owner is a large corporation. The mine is expected to be worked for many years to come, and the output is expected to be increased in the future.

ating from Tonopah, where he lived for many years previous to the funeral. He visited Greenwater a few weeks ago, and reports that the main shaft of the Greenwater and Death Valley Company, more familiarly known as the Schwab property, has now reached a depth of 250 feet and will be pushed to the 1000-foot level with all speed.

Kunze was the original locator of the property now controlled by the Schwab company and was to have received several hundred thousand dollars and a large block of stock for his interests. While the market was a high figure the East he was induced to take stock in place of a large cash payment, which fell due last spring. It is needless to say that he still has it. His wealth one year ago was conservatively placed at a half-million dollars in Greenwater interests alone.

Movements of Mining Men.
W. R. Rulon, manager of the Le Roy mine at Searchlight, is visiting the property in company with J. V. Pendas, a cigar manufacturer of New York, who is one of the principal owners.

Lane C. Gilliam, the local mining engineer, who has been in charge of work at the Boca del Cobre mine, near Torreon, Mex., for the past year, is expected in the city within the next few days.

Seeley W. Mudd, part owner of the Queen Esther mines, near Mojave, left for a trip of inspection to the property last night in company with George Nicholson, mine manager. The latter has just concluded the examination of a property in the vicinity of Desano, San Diego county.

Col. C. A. Hopkins, president of the Quartz Mining Company of Searchlight, left for Boston yesterday on business connected with the recent purchase of the Jumbo mine at Hart. He reports the latter property as showing well with development and says that the new hoist which is being installed and for which grading has just been completed will rest upon a solid body of 315 ore. He expresses the opinion that all early predictions of the new gold camp are being fulfilled.

THE OIL INDUSTRY.
MEXICO DEVELOPS SOUTH OF EBANO
GOOD WELLS COME AND THERE ARE NO FAILURES.

Reports of a Shallow Strike at Newport Beach—Local Company at McKittick—Union-Standard Fight Brings Gasoline Price Down—Exports and Santa Maria Work.

That Pearson, the big British corporation is not to be rivalled in its Mexican operations, is again evidenced by the last reports from the Oil Fields of Mexico. Led operating near the Gulf Coast of the republic south of Ebano where new wells are being brought in continually, according to a letter received by C. S. Young, two weeks ago our baby had a dreadful cold, and at one time I feared it would have pneumonia, but one of our neighbors told how Chamberlain's Cough Remedy had cured her little boy, and I began giving it to our baby at once and it soon cured her. I had tried other remedies and they all failed to do her any good. Our baby is now well and we heartily thank Chamberlain's Cough Remedy for it cured her. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was.

Shallow Strike at Newport?
Yesterday oil was reported to have been struck at only several hundred feet depth in the Fairview well (Collins and Young) at Newport Beach. It is said to be a comparatively light product, to be found at a shallow depth and the final result will be watched with much interest. It is not supposed that there can be any large amount yet found.

Local Men at McKittick.
The Nicodemus Oil Company has just been organized to operate 140 acres comprising the southeast quarter of section 4, 21 south, 22 east at McKittick, some two miles south of the Dabney wells, west of one of the Monarch's and north of the Chandler-Candfield Midway (now Santa Fe) property. The company's officers are: Willis George Emerson, president; W. L. Tubbs, first vice-president; J. E. Wickham, treasurer; W. E. Donaghy, secretary; W. O. Emerson, assistant secretary; Willis George Emerson, J. E. Wickham, J. R. Lane, J. R. Kellerman, W. L. Tubbs, Charles S. Gilbert, A. P. Maginnis, directors. The company is a Nevada corporation with \$1,000,000 capitalization.

Union-Standard Cuts Rates.
Gasoline has gone down from 18 to 16 cents per gallon as a consequence of the competition between the Union and Standard in Southern California. That the fall, is directly due to this competition is clearly shown by the fact that the demand for this article is much greater than for the other oil products whose prices have fallen less or not at all. Consumers, of course, get the benefit and they are wondering how long it will continue. The engine distillate trade is about to open to the limit with the irrigating season and if the two big concerns get busy the farmers may be reminded of the old days when the Puente and Standard were fighting and they (the farmers) bought fuel at 8 to 6 cents a gallon. As usual the smaller independents will be the sufferers.

Exports from California.
Official statistics of oil exports and other ocean shipments from San Francisco for March just compiled, show an increase of more than 100 per cent. over the same month in 1907. Of refined oil, 5,534,469 gallons or 139,011 barrels were shipped against 2,218,479 in March, 1907. All this goes to the Orient and is shipped by the Standard. Of crude, 5,500,000 gallons or 127,500 barrels went to Hawaii and Alaska against only 2,528,000 gallons or 60,000 barrels. There were three cargoes of part cargoes of refined and four of crude. The value of the refined oil is given as \$282,450 and that of the crude as \$32,550. Experience, however, has shown that these figures have very little practical value as they are given by the companies at shipment at almost anything that strikes the fancy of the man in charge at the moment.

Western Union Re-elects Officers.
The Western Union has just re-elected its officers and directors for another year. A report was submitted at the meeting on Monday stating that progress was being made in shutting off water from the wells. The Graciosa, whose property adjoins and is similarly affected, was declared to have had success in this which encourages the Western Union to hope for better soon.

The opportunity to buy the choicest, most desirable summer furniture at such great price savings as now offered here could not come at a more opportune time, for home owners are just in the midst of planning and preparing for warm weather needs. The advantage in choosing from this superior stock needs no emphasizing, and especially now, when the radical price reductions here entirely eliminate competition.

SPECIAL ANNOUNCEMENT—In order to better display our line of summer furniture, we have just prepared, with much thought and care, one of the most unique, handsome and attractively arranged departments in all the United States, devoted entirely to this one class of goods. We invite every one who is interested along this thought to visit the exhibit. Drop in, if only to look.

YOUR ideas in clothes-buying and ours in selling are the same. You want value for your money—in style, in fit, in quality of materials, in tailoring—the greatest value possible. We want you to have it; and to be satisfied that you have it; we intend to be more particular about our part than you are about yours. If we can. You'll realize how well we've done our share when you see the Business Suits, Tuxedos, Full Dress Suits and Overcoats we have for you. Drop a cake of Ivory Soap in bath tub or washbowl—do you have to grope for it?
No!
Up, up it comes to the surface of the water.
That is one of Ivory's advantages over other bath and toilet soaps—it floats.

Other advantages are: It is pure; it lathers freely; it contains no "free" alkali; it leaves the skin as smooth as satin.
